

THE BILLBOARD BARRICADE CC42X96

Delight your guests with beautiful barricades. They're easy on the eye, safe to handle, simple to store, and designed for advertisements. Crowds will love you, and sponsors will pay you!

EASY ON THE EYE

Our barricades are brightly colored and attractive. We stock a variety of colors and take custom orders. Our unique design allows barricades to interlock, forming a continuous wall. They can be set up in various configurations to delineate restricted areas and bolted together for additional stability and security.

SAFE TO HANDLE

With no rust or sharp edges to contend with, our plastic barricades are friendlier to the people who use them. Our barricades are made of High Density Polyethylene (HDPE), a superior grade of plastic known for its strength and durability. This means our barricades stand up to weather, transport, and crowds.

SIMPLE TO STORE

The Billboard Barricade features rotating support feet that close inward, allowing barricades to nest and stack flat for more efficient storage and transport.

DESIGNED FOR DISPLAY

Branding, advertising, and directional messaging are easy with the Billboard Barricade. Many of our clients are able to generate additional revenue by selling ad space. We print graphics on corrugated PVC sign board that can stand up to weather just as well as our barricades do. Signs are 28.5" x 36" and are attached with four bolts.

FEATURES & BENEFITS

- Support feet close inward allowing barricades to nest and stack flat
- Barricades interlock to form a continuous wall
- Superior strength to weight ratio when compared to steel
- Built-in molded inserts hold flags or anchoring posts
- One-year manufacturing defect warranty
- Designed to last a minimum of eight years
